PURSUIT *United.*

STRAIGHT RYE WHISKEYS

Finished with Sherry French Revere Oak

The subtle and perfect compliment. This expression is for those who seek more from the sweet side of rye. A higher corn percentage provides bourbon-like qualities but gets another layer of complexity by finishing it with 36-month air dried French oak staves that previously held sherry. The maturation process is closely monitored to ensure balance so the sherry adds a nuance that will appeal to every whiskey drinker. **Enjoy this pursuit.**
